MONDAY APRIL 20, 1908

They might make it another million for Pearl Harbor while they are about it.

## CRITICISING LITTLEFIELD.

The attempts made locally to criticize the Hon. C. E. Littlefield, who, unfortunately for Hawaii, has resigned from Congress, call to mind the comment made by Mr. Littlefield during his stay in the islands. He was at that time subjected to a line of discourteous comment, which was not only a misrepresentation but also in extremely bad taste.

Mr. Littlefield remarked in passing, "I trust they know that I don't care a rap what they say. I form my own opinions."

Mr. Littlefield is a man whose character and standing is so far above his petty critics in this town that their few unpleasant words furnish an example of the fact that Honolulu has still a few pirates on the beach as a relic of former days.

## FOR PARTY UNITY.

It is very gratifying to note the unanimity with which the tentative harmony program proposed by the Bulletin is accepted and favorably commented upon. There are some things so obviously good that even the criminal classes cannot find a point on which to hang an objection.

It is a matter in this campaign as it has been in all other campaigns of getting the people to take an active part in campaign work. There are so many good men who find that they have "not the time" or the disposition to get into the work of politics and affairs of government, that they furnish the basis from which the blatherskite and bludgeon-wielders of ill-repute carry on their campaign of misrepresentation against party-workers.

It is not always possible to approach a political problem in the natural logical way. Therefore if it is deemed best to name the fruit before it has developed to maturity and pick the leaders first, so let it be.

What every citizen and every leader should bear in mind, however, is that success cannot be gained by a namby-pamby, stay-at-home, back-of-the-parlor game.

Every man must do his utmost early in the year to line up and size up the forces in his own precinct. It is the individual work that counts, coupled with a practical exhibition of fair play in shaping up the organization and the party ticket.

This is a fact a great many very excellent people forget.

## IMMIGRATION AND DEVELOPMENT.

The acts of violence done by recent immigrants to the mainland have caused the "immigration" problem to again come to the fore and with it a variety of proposals for checking the influx of undesirable.

Every plan to reduce the number and improve the quality of people coming to the country raises the old, old problem of how the good may be separated from the evil, and the labor market still supplied for carrying on the developing industries.

"What would we have done without them?" is a query that has caused the New York World to present some interesting figures regarding the work and growth for which the immigrant is in a large measure responsible.

"From the beginning of the Republic 26,000,000 immigrants have come hither; 25,000,000 since 1842," says the World. "Even before the discovery of gold, from 1845 to 1849, immigration was as rapid in proportion as it has ever been since; and in 1851-54 67 immigrants came for every 1,000 of the population, while in 1904-07, in a rush that may never again be equaled, only 51 came for every 1,000."

"There were in the country in 1900 10,000,000 foreign-born and 26,000,000 of foreign parentage. No reckoning was possible of those of foreign grand-parentage. But their number must be great. The increase of native whites of native parentage,

1890-1900, was only 18.9 per cent., while whites of foreign parentage increased 36.2 per cent.—almost twice as fast.

"If we can imagine immigration to have been cut off in 1842, we can figure this nation in 1908 as one of possibly 45,000,000 souls. The first Brooklyn bridge is just begun; New York City is a town of less than 1,000,000 people on Manhattan Island; Brooklyn has annexed Williamsburg, but there are big grain fields between."

"With immigration stopped in 1842, we might have had no Civil War. The South would be in control in Washington, and, if the South wished it, slavery would still exist. We should be slowly becoming, indeed, a negro nation. The colored population would be nearly one-quarter of the whole, where at the beginning of the Republic it was only one-sixth. It is now, thanks to our citizens of foreign birth, parentage and grand-parentage, only 11.6 per cent. of the nation."

"New York and New England would have suffered most in this respect. In 1900 the excess of births over deaths among native whites in these seven States was only 3.8 per 1,000. The excess among colored people in the country was 17.8 per 1,000. For native whites the excess for the country was slightly greater, but with natives of foreign parentage and grand-parentage excluded it would have been far less."

"The compelling cause of American development for two generations has been foreign misgovernment driving white men hither. That some have brought with them a hatred of the existing order which is illogical."

## Kilauea Volcano

"It was the grandest spectacle on earth." "The fire was thrown within twenty feet of the top of the pit, and the floor was covered with running streams of lava." "I would not have missed the sight for any consideration."

These were the remarks made by visitors who returned from the Volcano by the MAUNA LOA this week. Don't wait for the activity to cease; book now while the show is on.

Only \$42.50 for the round trip. For information regarding the trip apply to

In a free Republic is no reason for raising the bars against all immigrants.

So it is in Hawaii. Immigration has not worked out just as was most to be desired for certain ideals. But "What would Hawaii have done without them?"

## PAHIA, REPUBLICAN

Editor Evening Bulletin:—It has been said in the newspapers that I have joined the Labor Union party, but permit me to deny this and state I am a true Republican as I have always been since Annexation. FRANK PAHIA.  
Kaneohe, April 20, 1908.

## FINEST NEWS YET

We can look for the Fleet by the first of June. Why not? It will likely be here not later than the 17th, and stop, until after the glorious Fourth.

EDITOR TIMES.

## SAY?

Would it not pay Manager Cohen to keep both the Orpheum and the Opera House open during the Fleet days—one, say, afternoons and the other evenings. We believe, too, if he could start a first-class nickel-and-dime picture show, near the waterfront. He might too engage nice refreshment carts to stand by!

EDITOR TIMES.

(Continued from Page 1)

## CARS WILL RUN

their place. One of the tubes which burst and thus caused the trouble, had burst along the seam, while the other had burst in another place. In both cases the damage done to the tubes was considerable.

"This is the first time in seven years that any of our tubes have burst," said Manager Balleentyne this forenoon. "Tubes cannot be expected to last forever. The tubes had no flaws, but we have a theory regarding the cause of the trouble. However, I am not yet prepared to give out what that theory is. At any rate no blame can be attached to any of our employees."

"The men who were hurt yesterday, are doing well."

## HONOLULU WEATHER

April 20.  
Temperatures—6 a. m., 68; 8 a. m., 70; 10 a. m., 70; noon, 73; morning minimum, 67.  
Barometer, 8 a. m., 30.17; absolute humidity, 8 a. m., 6.145 grains per cubic foot; relative humidity, 8 a. m., 77 per cent; dew point, 8 a. m., 62.

# BULLETIN NEWSBOYS

The Bulletin's Newsboy Contest is rapidly drawing to a close; Thursday, April 30, is the last day, and the hustlers who have worked for ten weeks early and late, will be rewarded with ten of the finest prizes ever given out by any newspaper in Honolulu. On Monday next these splendid prizes will be on view in the windows of E. O. Hall & Co., Ltd. The boys who are ahead will brace up to retain their leadership and the boys who are behind will do their utmost during the few remaining days of the contest to catch up and win out. The prizes are well worth while and the winners will have every cause to be happy. The list of boys and the number of Bulletins they have sold up to Thursday, April 16, are as follows:

## COASTWISE LAW AND VERY'S ORDERS

Admiral is Ordered Home But Can not Go—Nor Can He Get Regulation Statestroom.

Admiral Very has come into immediate contact with the operation of the coastwise shipping laws and the orders of an officer from his command.

Admiral Very has orders to proceed to his home as soon as his successor arrives. Orders are orders.

A COLLAR BUTTON is an insignificant article, yet it is a very necessary one. There is a great difference in collar buttons; the cheap, flimsy one is an abomination, but the strong, heavy, well-made, solid gold button is a pleasure to use and wear.

Our are the kind that LAST  
A LIFETIME and GIVE SATISFACTION TO THE WEARER.

H. F. Wichman & Co.  
LIMITED.  
LEADING JEWELERS.

and it is the duty of Admiral Very to proceed. It is possible, however, that he cannot proceed. It is reported that the steamship Korea, on which he should take passage, is filled to overflowing.

There is also a department regulation that gives an Admiral, when traveling under orders, an exclusive stateroom. Admiral Very cannot get an exclusive stateroom. He cannot get any stateroom, or could not at latest advice.

Thus are the orders of the Government upset by its own laws. The situation is peculiar, and another item is recorded against the coastwise shipping law.

## LAND TRANSFERS ARE NUMEROUS

Territory of Hawaii Exchanges For Various Strips of Private Property.

M. B. da Silveira and wife of San Francisco have made a deed by way of exchange of land to the Territory. The amount of land transferred is 2343 square feet and will be used in the extension of Fort street.

J. H. Schnack and wife have transferred the streets known as Pall Avenue, and Henry and Dow streets in the piece of land known as the "Nuuanu Tract" to the Territory, for a subdivision of lands in Nuuanu Valley. An exchange deed has been filed between the B. P. Bishop Estate and the Territory of Hawaii whereby the Territory conveys a portion of an old roadway in consideration of a piece of land for a new roadway in the district of Kalauna, Ewa, Oahu.

J. B. Atherton Estate has conveyed to the Territory of Hawaii a ten-foot right of way for a water pipe line through Nuuanu Valley in consideration of \$1.

The Territory has made an exchange deed with E. M. Swanzy whereby the former conveys a portion of an abandoned government road in exchange for certain lands for a location of a new government road in Koolahale in Hamakua, Hawaii. All of these transfers except the latter have been made for the interests of the Territorial roads or Public Works Department.

## REAL ESTATE TRANSACTIONS

## IMPROVEMENTS AND BONDS.

(Special to the Bulletin)  
Waikuku, Maui, April 18.—The Maui Board of Supervisors will meet this morning to open bids for new road contracts for East Makawao. There are about seven different bidders for each. Among the bidders will be A. A. Wilson, J. H. Wilson, J. A. Awoong and various hula. Two of the public works proposed will be affected by the decision of the Supreme Court in re Maui County bond issue of \$100,000, which is hanging fire before that tribunal. If the court should decide that the act was faulty, the proposed improvements would have to be done without a bond issue by the county. And if the court decides in favor of the act, the bankers would still refuse to loan money to the county because the law calls for 5-15 and the money lenders really want 5-20 bonds and no less. As far as Maui County is concerned 5-10 is more preferable or even less time, for that would induce the County Fathers, whoever they may be next year, to lay aside a larger sinking fund for the redemption of the bonds, and the interest thus saved could be utilized for more public improvements, instead of being added to profits of corporations.

A "healthy body and a cheerful mind" are the principal equipments to be used by Vilikjmur Steffansson, who is to start next month on an Arctic trip in a rowboat.

# Stein - Bloch Styles Spring and Summer

THE NEW STEIN-BLOCH styles are being shown.

Where did they come from?

Styles—as this house presents them — represent no one man's ideas.

Stein-Bloch advertising presents to you photographs of the current Spring and Summer models according to the world's best usage. They are genuine composites. They bring together into one suit or overcoat the various points included in reports received from Stein-Bloch outposts in the acknowledged fashion capitals.

Stein-Bloch commissions go at reasonable intervals to all those places on both sides of the Atlantic where advance fashion ideas are brought together into one procession by the limited trains and the ocean grey hounds. The observations of these men meet in the Stein-Bloch designing and cutting rooms.

At one time it is a new fabric from exclusive foreign looms, to be accurately reproduced for Stein-Bloch use. At another time it is a trim top-coat idea from the box of a tallyho at a race meet in England. Again an afternoon coat worn on Fifth Avenue by a man who has time and means to indulge his clothes whims. Or it may be a smart suit idea from the floor of the Stock Exchange—or a hot weather suit from Palm Beach.

Whichever it is, it is authentic, and shamed out to present to you as the most economical and sensible solution of a serious modern problem.
